Thematic symposium
*Biomechanics for
in silico clinical trials*
30 September 2019

General Meeting
*Biomechanics
in Italy*
1 October 2019

www.esb-ita.it

The annual meeting of the ESB-ITA offers the opportunity for young scientists to present and discuss their research in a friendly and informal atmosphere. The event includes a thematic symposium with three outstanding international keynotes.

Day 1 – Thematic Symposium
Biomechanics for in silico clinical trials

Poster and oral session about in silico trials.

Invited Keynote Lectures:

Marco Viceconti (University of Bologna)
“In silico trials: present, future, open challenges”

Blanca Rodriguez (University of Oxford)
“Human *in silico* trials in cardiac pharmacology”

Luca Emili (InSilicoTrials Technologies, Milan)
“InSilicoTrials: modeling and simulation from lab to market”

General Assembly of the Italian Chapter of the European Society of Biomechanics

Social event: visit of the *Teatro anatomico* (1637) in the *Archiginnasio* (to be confirmed)

Day 2 – General Meeting
Biomechanics in Italy

Poster and oral sessions will showcase the state-of-the-art of biomechanics, mainly but not only in Italy. Contributions are encouraged on all aspect of biomechanics.

Topics:

Musculoskeletal biomechanics
Orthopaedic biomechanics
Cardiovascular biomechanics
Tissue constitutive modeling;
Multiphysics modelling
Mechanobiology
Growth and remodelling
Nanomechanics and nanomedicine
Modeling of drug delivery
Image-based methods
In silico medicine

Selected papers will be published in a special issue of Medical Engineering & Physics

Awards for young researchers (max 35 y.o.):

- Thematic Symposium: Best *in silico* model for industrial translation via on insilicotrials.com
- Best oral presentation of Day 2
- Best poster
- Best master thesis in biomechanics (defended between 1 Jul 2018 and 30 Jun 2019)
